

FOOTPATH WARDEN REPORT

I have recently taken on this role as I regularly walk the footpaths with my trusty dog, and it is important to ensure that these lovely walks through our village and countryside are maintained for everyone to enjoy.

I have already reported to Suffolk Council fallen trees, finger posts that have fallen over, and a broken handrail on a footbridge. The council did replace the broken handrail and kindly installed a whole new footbridge as well!

There will be a footpath walking day arranged in the Autumn around September time, for villagers to walk and report any issues they find that needs the Councils attention. This can be done using the Suffolk Councils Highways Reporting tool or pass to me at the e-mail address of footpathwarden@worlingworthparishcouncil.gov.uk
