

Tree Warden Report to Worlingworth APM 15th April 2026

I continue to have close communication with the Woodland Trust who invite wardens to join training events, such as hands on “fruit tree grafting techniques” and “trees and the law”. I have attended various in the past. The Trust also provides offers of free various trees and hedging. A parishioner was able to take advantage of this to accept five hundred mixed hedge saplings to establish boundaries around their property.

Other parishioners have taken advantage of the PC grant of £100 for individual ornamental trees to enhance a lawn or to brighten a forgotten-about corner of a garden. I can always pay a visit to survey your situation and offer advice.
